

FREELANCE SOFTWARE DEVELOPMENT AGREEMENT AND COMPLETION ACKNOWLEDGMENT

Effective Date: August 20, 2026

PARTIES

This Agreement ("Agreement") is entered into by and between:

Service Provider:

Vanshika Sabharwal ("Developer" / "Freelancer")

Client:

Bear Bags (bearbags.in) ("Client")

(each a "Party," collectively the "Parties")

1. BACKGROUND

The Client engaged the Developer as an independent freelance Software Engineer to design, build, test, and deploy the Client's e-commerce web platform, operating under the brand name **Bear Bags** at the domain **bearbags.in**. This Agreement documents the terms of that engagement and serves as a formal acknowledgment that the scope of work described herein has been completed and delivered as of the Effective Date.

2. SCOPE OF WORK

The Developer was engaged to provide end-to-end software engineering services for the Bear Bags platform, spanning the full project lifecycle from initial design through production deployment, including but not limited to:

- Product & UI/UX Design** — Design of the site's page layouts, components, and user experience flows (including product listing, cart, checkout, and informational pages).
- Frontend Development** — Implementation of the web application using **Next.js**, including component architecture, routing, state management, and responsive design.
- Backend Development** — Server-side logic and APIs built with **Node.js**.
- Database Design & Integration** — Data modeling, storage, and integration using **MongoDB**.
- CRM Integration** — Integration with **Zoho CRM** for customer relationship and order/lead management workflows.
- Testing & Quality Assurance** — Functional, integration, and regression testing of implemented features.
- Iterative Development & Review Cycles** — Work was carried out using an **iterative development model**, wherein each feature or module was implemented, reviewed, and refined based on feedback

before being finalized, repeating this design → build → test → review → improve cycle throughout the engagement.

8. **Deployment** — Configuration, release, and deployment of the completed application to a live production environment.

3. METHODOLOGY

The Developer followed an **iterative development methodology** throughout the engagement. Each module or feature progressed through the following repeating cycle:

1. Design / Planning
2. Implementation (Coding)
3. Testing
4. Review (self-review and/or Client feedback)
5. Improvement / Refinement based on review outcomes
6. Repeat until the module met the required standard, then proceed to deployment

This approach ensured continuous quality improvement and alignment with Client requirements across the lifecycle of the project.

4. TECHNOLOGY STACK

The following technologies were used to design, build, and deploy the Bear Bags platform:

Layer	Technology
Frontend Framework	Next.js
Backend Runtime	Node.js
Database	MongoDB
CRM / Business Tooling	Zoho CRM

5. COMPLETION ACKNOWLEDGMENT

The Parties acknowledge and agree that, as of the Effective Date stated above, the Developer has **completed the full scope of work** described in Section 2 — from initial design through final deployment — including all associated coding, testing, review, and iterative improvement cycles. The Bear Bags platform (bearbags.in) has been delivered and deployed to production.

6. INDEPENDENT CONTRACTOR RELATIONSHIP

The Developer performed all services as an independent contractor and not as an employee, partner, or agent of the Client. Nothing in this Agreement shall be construed to create an employer-employee

relationship between the Parties.

7. INTELLECTUAL PROPERTY

Upon full payment (if any remains outstanding) of all fees due under this engagement, all rights, title, and interest in the deliverables created specifically for the Bear Bags platform under this engagement shall belong to the Client, except for any pre-existing tools, libraries, or general-purpose code owned by the Developer prior to this engagement.

8. CONFIDENTIALITY

Each Party agrees to keep confidential any non-public business, technical, or customer information disclosed by the other Party in connection with this engagement, and not to disclose such information to third parties without prior written consent, except as required by law.

9. GOVERNING LAW

This Agreement shall be governed by and construed in accordance with the laws of India.

10. SIGNATURES

By signing below, both Parties acknowledge that they have read, understood, and agree to the terms of this Agreement, including the Completion Acknowledgment in Section 5.
